1.1 Introduction

London College of Music Examinations (LCME)

External examinations have been awarded by the London College of Music since the institution's founding in 1887. Today, examinations are held throughout the United Kingdom, Republic of Ireland and at many overseas centres; they are unique in the graded examinations sector in being awarded by a university, ensuring the added quality assurance of the University of West London (UWL), who is the issuer of certificates. Graded and diploma exams in most subjects are regulated by Ofqual and other UK regulators. Candidates applying to UK universities through the UCAS system are eligible to claim UCAS points if they achieve a pass or higher at Grades 6 to 8 in a regulated subject.

What makes LCM Examinations distinctive

LCME's graded and diploma qualifications make a distinctive contribution to education in music, drama and communication, because of the emphasis placed upon:

- creative thinking
- an encouragement to think technically and critically about the repertoire performed, and the opportunity to communicate this in practical examinations
- a distinctively broad stylistic range of tasks and repertoire, with a strong emphasis towards the acquisition and demonstration of skills and understandings that are of contemporary relevance to the performing arts
- the provision of assessment in areas not traditionally included within the scope of graded examinations
- the provision of flexible examination formats and arrangements

Syllabus objectives

A course of study based on this syllabus is intended to provide:

- a balanced combination of performing skills, supported by knowledge and understanding
- an enduring love, enjoyment and understanding of the performing arts, from the perspective of both participants and audience
- the basis to develop relevant and usable skills and concepts
- skills in organisation, planning, problem solving and communication
- enhanced ability in acquiring the personal disciplines and motivation necessary for lifelong learning
- opportunities for learning that are structured and directly related to the repertoire published for each grade
- opportunities for learning and assessment that are creatively challenging
- a progressive and unified assessment system, enabling candidates to plan and obtain an effective education in the arts, equipping candidates with added-value to enhance career routes, educational opportunities and decision-making

1.2 Syllabus validity

This syllabus is valid for Steps, Grades, Recital Grades, Leisure Play and Performance Awards exams in Violin from Summer 2021 until Winter 2025. The 2011–2019 repertoire list will remain valid until the end

of the Spring 2022 exam session, giving a three-session overlap.

1.3 Changes to the syllabus

This syllabus replaces the Music Grades Syllabus and Violin Repertoire List (2011–2019). These are now combined into one syllabus. Major changes to the syllabus consist of:

- revised Technical Work component — candidates now have a choice between performance of a revised selection of scales and arpeggios or performance of a study (two studies at grades 6–8)
- new repertoire
- revised Discussion topics
- new Sight Reading parameters

There are two levels of introductory examinations in Violin: Step 1 and Step 2. The pass bands are the same as for the graded examinations (Distinction (85–100% of the total marks available), Merit (75–84%) and Pass (65–74%)). These exams are not regulated by Ofqual.

1.5 Exam entry

Exam dates, locations and fees

Details of exam dates, locations, fees and how to book an exam are available on our website:

lcme.uwl.ac.uk

Age groups and requirements for prior learning

LCM Examinations are open to all and there are no minimum age restrictions, however it is unlikely that candidates below the age of 12 will possess the musical maturity for success at Grades 6 to 8. There are no prerequisite qualifications required for entering any step or graded exam; candidates can enter at any level provided they have the required knowledge, skills and understanding.

Reasonable adjustments and special considerations

Information on assessment, examination and entry requirements for candidates with specific needs is published in the Equality of Opportunity, Reasonable Adjustment and Special Consideration policy available on our website.

1.7 Assessment and results

Assessment

Qualifications are awarded by University of West London Qualifications (UWLQ). Exams are conducted by trained external examiners and are held at approved centres in the UK and overseas. Candidates will be assessed on their technical accomplishment, musicality, musical knowledge and communication. In awarding marks, examiners will take into account the extent to which each of these assessment domains is demonstrated within the individual exam components; the assessment criteria used by the examiners for graded examinations is given in Section 7: Assessment. A Pass in each individual exam component is not required to pass overall.

Issue of results

A written report will be compiled for each examination. Candidates will be informed of the result of examinations as soon as possible. Results are available online within days and will be sent by post not later than four weeks after the examination date. Certificates for successful candidates are normally dispatched within eight weeks of the date of the examination, but very often they will be received sooner than this.

This time is necessary to ensure that all results are properly standardised and have been checked by LCM Examinations.

Enquiries, complaints and appeals

Information on how to make an enquiry, complaint or appeal is published in the Enquiries and Appeals policy and the Complaints procedure documents available on our website.

1.8 Exam regulations

Full details of all general exam regulations are published in the Regulations and Information document available on our website.

1.9 Performance guidelines

Use of music in the examination

Candidates must use published editions of all music performed in the examination — legal downloads are acceptable. Where a certain edition is listed in the syllabus candidates may use any alternative published edition of the music, provided that it is not a simplified version. Candidates should ensure that they have obtained all the necessary music before submitting an entry. Where a candidate wishes to perform from memory, published editions of the music must still be available for the examiner's reference.

All repertoire should be performed as indicated in the published edition, for example, music which is published with an accompaniment must be performed with it. Music must not be altered, abridged or cut.

Repeats

Da capo and *dal segno* signs should be observed. Short repeats (two systems or fewer) should be observed but longer repeats (for example, full exposition of a sonata form movement) should not be performed.

Tuning

Candidates may obtain assistance from their accompanist with tuning their instruments up to Grade 5. From Grade 5 onwards candidates should tune their own instruments. Examiners will not provide tuning assistance.

Accompaniment and backing tracks

It is the candidate's responsibility to provide a suitable accompanist for the examination, if required. LCME cannot provide or recommend accompanists. Backing tracks are acceptable. Where backing tracks are used, candidates are responsible for bringing their own equipment; it is acceptable to have someone present to operate it in the appropriate parts of the examination.

Candidates perform four pieces, selected from the set lists (A, B and C) for the equivalent grade; there is no requirement to select the pieces from different lists. Where a study is listed for the equivalent grade, this may not be included in the programme.

Component 2: Performance or Sight Reading or Discussion

2.4 Leisure Play

Exam components

Candidates perform four pieces. At least three of the pieces are to be selected from the listed repertoire for the equivalent grade; there is no requirement to select one piece from each of the set lists (A, B and C). The fourth piece is the candidate's own choice; this does not have to be selected from the repertoire lists and it may be an original or own composition. There is no requirement for own choice pieces to be pre-approved but advice on the appropriateness is available from the Chief Examiner in Music. Candidates should be aware that if the standard of an own choice piece is significantly easier than that of the equivalent grade, this may be reflected in the marking.

	Performance 1	Performance 2	Performance 3	Performance 4
Grades 1 to 8	25%	25%	25%	25%

Regulation

Leisure Play exams are regulated by Ofqual and attract UCAS points in the same way as our standard graded examinations.

3.1 Introductory examinations

Steps 1 and 2

The musical material selected for these grades, and therefore the standard of performance expected, is of an elementary nature. Only the most basic, and therefore most common, chords and structures are used. Melodic and rhythmic material will be simple. Expectations of dynamics, articulation and phrasing are limited to the most basic types and to occasional use. The repertoire of scales and chords in Component 1 is limited to the least demanding examples. Technical accomplishment is a more important element of assessment than is musicality, and expectations of communication are limited.

3.2 Graded examinations

Grades 1 and 2

The musical material selected for these grades is of an essentially elementary nature. Only basic time signatures and keys are used. Melodic and rhythmic material is simple. Indications of dynamics, articulation, phrasing and ornamentation will occur only sporadically in the music, and will be limited to basic types. The repertoire of scales and arpeggios in Component 1 is limited to the least demanding examples. Technical accomplishment is a more important element of assessment than is musicality, and expectations of communication are limited.

Grades 3 and 4

The musical material selected for these grades is of a more demanding nature. The number of keys and time signatures which may be used is increased. Melodic and rhythmic material is more complex. Indications of dynamics, articulation, phrasing and ornamentation will be a more regular feature of the music, and a wider variety of type will be used. The repertoire of scales and arpeggios in Component 1 is expanded in number, and includes more taxing examples. Musicality is an increasingly important element of assessment in relation to technical accomplishment and expectations of communication are higher.

Grade 5

The musical material selected for Grade 5 is of a significantly more demanding nature than for previous grades; it is the first grade where one might expect to encounter repertoire which might conceivably be performed at a professional recital. The number of keys and time signatures which may be used extends to all but the most unusual and unlikely examples. Melodic and rhythmic material may include a moderate degree of complexity. Dynamics, articulation, phrasing and ornamentation will be varied and will often demand a degree of subtlety in performance. The repertoire of scales and arpeggios in Component 1 is expanded in number to include more taxing examples. Musicality is judged to be an important element of assessment, and expectations of communication are higher.

Grades 6 and 7

The musical material selected for these grades may be described as being at the technically less demanding

end of the continuum of professional repertoire. The number of keys and time signatures which may be used extends to the full range of possibilities. Melodic and rhythmic material may include a significant degree of complexity. The music will include passages where dynamics, articulation, phrasing and ornamentation demand considerable dexterity and flexibility. The repertoire of scales and arpeggios in Component 1 is expanded in number to include a large number of types; in addition, candidates may be asked to perform them with varying dynamics and articulations. Musicality is judged to be almost as important as technical accomplishment in the assessment and the candidate is expected to communicate with an emerging sense of musical personality.

Grade 8

The musical material selected for this grade may be described as being technically some way inside the continuum of professional repertoire. The number of keys and time signatures which may be used extends to the full range of possibilities; furthermore, pieces may include variations and changes of key and metre. Melodic and rhythmic material will include a significant degree of complexity. The demands of dynamics, articulation, phrasing and ornamentation will be consistent and considerable. The repertoire of scales and arpeggios in Component 1 is expanded in number to comprise an extremely wide range of type, requiring different playing styles and exploiting the full range of the instrument. Musicality is judged to be almost as important as technical accomplishment in the assessment, and the candidate is expected to communicate with an emerging or clear sense of musical personality.

Component 3: Discussion

7 marks

Candidates will be engaged in a short discussion with the examiner, relating primarily to the pieces performed in the Performance component. For examination requirements see page 33.

Component 4: Sight Reading**10 marks**

Candidates will perform a short, previously unseen piece of music. Up to one minute's preparation time will be allowed to study the test before playing, during which the candidate may try parts of the test if they wish. Sight Reading parameters for each grade are listed on page 34.

Component 5: Aural Tests**8 marks**

Candidates will be asked to complete a series of aural tests. For examination requirements see page 40.

5.1 Information

The knowledge required for the Discussion is cumulative; any knowledge required in earlier grades is required for later grades. There is no set form of words, or number of questions; examiners are encouraged to conduct the tests in a flexible and conversational manner. Candidates are not expected to demonstrate on their instrument or to sing but they may choose to do so if they feel that this would clarify their answer. Although accuracy and appropriateness of response are the principal criteria of assessment, examiners will also look for articulacy, use of correct terminology and a sense of engagement with, and understanding of, the music performed.

5.2 Requirements

Grades 1 and 2

This component of the exam consists of a short discussion with the examiner.

At this grade you should be able to:

- name, and explain the meaning of, all basic notational elements in the music performed in the Performance component of the exam, including: staff, bars and barlines, clefs, pitches of individual notes, rhythmic values of notes and rests (including dotted notes), key and time signatures, accidentals, dynamics, articulation markings, phrases, ornaments, and any additional markings
- explain which is their favourite piece and why
- assign simple descriptive words to pieces to describe their mood ('happy', 'sad', 'bouncy', 'jazzy', 'gentle' etc)

7.1 Information

The following information should be read in conjunction with the requirements for the relevant grade.

1. In tests where a sung response is required candidates may use any clear and appropriate syllable or vowel sound ('ah', 'la', 'oo', etc). They may also hum or whistle. Candidates may request tests to be transposed if required by their vocal range. Candidates may play back such tests on their instrument if they prefer; in this case, examiners must be informed prior to the administration of the tests.
2. Candidates may request any test to be given one repeat playing without loss of marks.
3. Examiners will use a piano to conduct the tests and will ask candidates to stand or sit in such a position that they cannot see the piano keyboard.
4. The printed wording given for each test is a guide only; examiners are encouraged to conduct the tests in a conversational manner.

8.2 How marks are awarded

The guidelines below are not intended to be mutually exclusive, but should function interrelatedly. Thus for any particular attainment band, one or more criteria might exceed those specified, while one or more others might fail to meet the requirements. The specific criteria for each component of the examination are as follows.

Technical Work

The examiner will consider the performance of the requested scales and arpeggios, and/or other tasks as detailed in the requirements, and will award a mark, taking into account the following:

	Technical accomplishment	Musicality	Musical knowledge
Distinction 85–100%	<ul style="list-style-type: none"> Consistently accurate and fluent response Within the prescribed tempo range Precise intonation and consistent tone quality 	<ul style="list-style-type: none"> Musically shaped 	<ul style="list-style-type: none"> Secure knowledge of pitch content of specified exercises
Merit 75–84%	<ul style="list-style-type: none"> Mostly accurate with occasional lapses Within the prescribed tempo range Moderate precision of articulation and intonation and moderate consistency in quality of tone 	<ul style="list-style-type: none"> Evidence of musical shape and phrasing 	<ul style="list-style-type: none"> Mostly secure knowledge of pitch content of specified exercises

Performance

The examiner will consider the performance of each of the pieces separately, and will award a mark for each piece. These marks will be combined to produce the mark for Performance, with equal weighting. In awarding the marks, the examiner will take into account the following:

	Technical accomplishment	Musicality	Musical knowledge	Communication
Distinction 85–100%	<ul style="list-style-type: none"> • High level of technical accomplishment, demonstrating accuracy and fluency • Well-developed and secure tone quality, intonation and/or articulation 	<ul style="list-style-type: none"> • Mature sense of musical style and an ability to take charge of expressive elements • Confident and assured performance 	<ul style="list-style-type: none"> • Secure understanding of musical notation 	<ul style="list-style-type: none"> • Sense of individual interpretative skill • Clear ability to engage the listener fully
Merit 75–84%	<ul style="list-style-type: none"> • Ability to cope well with the technical demands of the music • Good standard of tone quality, intonation and/or articulation 	<ul style="list-style-type: none"> • Evidence of musical shape and phrasing • Confident performance 	<ul style="list-style-type: none"> • Secure understanding of musical notation should be evident 	<ul style="list-style-type: none"> • Some sense of individual interpretative skill • Ability to engage the listener
Pass 65–74%	<ul style="list-style-type: none"> • Fairly accurate, reasonably fluent but occasionally hesitant • Tone quality, intonation and/or articulation of a generally acceptable standard for this level 	<ul style="list-style-type: none"> • Some evidence of appropriate musicality • Reasonably confident performance 	<ul style="list-style-type: none"> • Evidence of an understanding of musical notation 	<ul style="list-style-type: none"> • Communication of something of the substance of the music • Basic ability to engage the listener
Below Pass 55–64%	<ul style="list-style-type: none"> • Some accurate and musical playing, but compromised by discontinuity in the performance and technical inaccuracies • Tone, intonation and/or articulation need more development 	<ul style="list-style-type: none"> • Some signs that a sense of musicality is potentially attainable 	<ul style="list-style-type: none"> • Evidence of an understanding of musical notation 	<ul style="list-style-type: none"> • Basic, but limited, communication of the substance of the music • Little evidence of an ability to engage the listener
Below Pass 0–54%	<ul style="list-style-type: none"> • Inaccuracies proportionately greater than correct playing and a lack of continuity which jeopardises the sense of performance • Tone and/or control of articulation need much more work 	<ul style="list-style-type: none"> • Musicality is not clearly evident in the playing 	<ul style="list-style-type: none"> • Some evidence of an understanding of musical notation 	<ul style="list-style-type: none"> • Little communication of the substance of the music • Very limited, or no, ability to engage the listener

Discussion

The examiner will consider the candidate's responses to questions, and participation in discussion, and will award a mark taking into account the following:
